

Alquist-Priolo Earthquake Fault Zoning Act -- Under this Act, the Board is authorized to represent the State's interests in establishing professional practice guidelines and standards for geological investigations and reports produced by the California Geological Survey, public sector agencies, and private practitioners, and to develop specific criteria through regulations that shall be used by affected local jurisdictions in complying with the provisions of the Act so as to protect the health, safety and welfare of the public.

This Act (Public Resources Code, Chapter 7.5, §2621 through §2630) is intended to provide policies and criteria to assist cities, counties and state agencies in the exercise of their responsibilities to prohibit the location of developments and structures for human occupancy across the trace of active faults as defined by the Board. Further, it is the intent of this Act to provide the citizens of the State with increased safety and to minimize the loss of life during and immediately following earthquakes by facilitating seismic retrofitting to strengthen buildings, including historical buildings, against ground shaking.

Seismic Hazards Mapping Act -- Under this Act, the Board is authorized to provide policy and guidance through regulations for a statewide seismic hazard mapping and technical advisory program to assist cities, counties, and state agencies in fulfilling their responsibilities for protecting the public health and safety from the effects of strong ground shaking, liquefaction or other ground failure, landslides and other seismic hazards caused by earthquakes, including tsunami and seiche threats.

The Seismic Hazards Mapping Act (Public Resources Code Chapter 7.8, §2690 through §2699.6) establishes the authority to provide programs to identify and map seismic hazard zones in the State in order for cities and counties to adequately prepare the safety element of their general plans and to encourage land use management policies and regulations to reduce and mitigate those hazards so as to protect public health and safety.

Surface Mining and Reclamation Act of 1975 -- The extraction of minerals in a responsible manner is essential to the continued economic well-being of the State and to the needs of society, and the thoughtful reclamation of mined lands is necessary to prevent or minimize adverse effects on the environment and to protect the public health and safety.

Under various statutes, the Board is authorized to represent the State's interests in the development, utilization, and conservation of the State's mineral resources, the reclamation of mined lands, and Federal matters pertaining to surface mining within the State.

The Surface Mining and Reclamation Act of 1975 (SMARA, Public Resources Code, §2710 through §2797) provides a comprehensive surface mining and reclamation policy with the regulation of surface mining operations to assure that adverse environmental impacts are minimized and mined lands are reclaimed to a usable condition. SMARA also encourages the production, conservation, and protection of the State's mineral resources. (Public Resources, §2207, provides for the annual reporting requirements of this statute, under which the Board also is granted authority and obligations).

B. HEARING PROCEDURES

Regulations governing the hearing procedures of the State Mining and Geology Board can be found under Articles 4, 5, 7, 11.5, 12, and 14, of Title 14, Division 2, Chapter 8, Subchapter 1, of the California Code of Regulations. These procedures can be accessed at the SMGB internet web site at: <http://www.consrv.ca.gov/smgb/>.

Unless otherwise specified in the public notice for a specific item, the SMGB wishes to limit oral presentations from all parties to three (3) minutes or less per individual depending on time constraints. Interested persons should submit to the SMGB office at 801 K Street, Sacramento, California, 95814, twelve (12) written copies of all comments, technical reports, and other material concerning any matters on the Agenda at least fifteen (15) days prior to the hearing date. This written material will be

provided to the SMGB along with the full agenda materials. In addition, persons submitting written comments and other materials should be present at the SMGB meeting and be available for questions.

Oral comments that are duplicative of written comments should be limited to a summary of the previously submitted written materials. The SMGB reserves the right to refuse to accept any late-submitted written materials, absent a proper showing that information is available which was not available at the time the written materials were submitted.

- (1) Hearings Pursuant to 14 CCR 3675, et seq., 3650, et seq., and 3680, et seq.:
Testimony and comments presented at hearings need not conform to the technical rules of evidence provided that the testimony and comments are reasonably relevant to the issues before the SMGB. Testimony or comments that are not reasonably relevant, or that are repetitious, may be excluded by the SMGB. Cross-examination may be allowed by the SMGB Chair as necessary for the SMGB to evaluate credibility of factual evidence or the opinions of experts. Video taped testimony by witnesses who are not present at the hearing will not be accepted unless such testimony was subject to cross-examination by all designated parties¹.

During the hearing, participants will be determined to be either "designated parties" or other "interested persons." Only designated parties may seek permission from the SMGB Chair to cross-examine witnesses. Interested persons may not cross-examine witnesses, but may ask the SMGB to clarify testimony. Designated parties automatically include the SMGB and any person to whom an Order is directed. All other persons wishing to testify or provide comments are interested persons.

For any hearing, the SMGB Chair will allocate time for each party to present testimony and comments and to question other parties if appropriate. Interested parties generally will be allowed three (3) minutes for their comments. Where speakers can be grouped by affiliation or interest, such groups will be asked to select a spokesperson. The SMGB Chair may allocate additional time for rebuttal or for a closing statement. Time may be limited because of the number of persons wishing to speak on an item, or the number of items on the SMGB's Agenda, or for other reasons.

All persons testifying must state their name, address, and affiliation. The order of testimony for hearings generally will be as follows, unless modified by the SMGB Chair:

- o Identification of the Record
- o Statements on behalf of the Petitioner/Appellant
- o Statements on behalf of the Lead Agency or the Director
- o Statements on behalf of the Public
- o Rebuttal and closing statements on behalf of the Petitioner/Appellant
- o Rebuttal and closing statements on behalf of the Director
- o Motion to Close the Public Hearing
- o Deliberation and voting by the SMGB, including SMGB examination of parties.

After considering evidence, testimony, and comments, the SMGB may choose to adopt, modify, or deny an order regarding a proposed agenda item. All SMGB files, exhibits, and Agenda material pertaining to the items on the Agenda are made a part of the record. Persons wishing to introduce item exhibits (i.e. maps, charts, photographs) must leave them with the SMGB

¹ This does not preclude the use of videotape to present graphic images, provided that the person who took the videotape is available for questioning and the presentation conforms to time limits imposed on all speakers; this is intended to apply to spoken testimony of witnesses who are not available for cross-examination at the hearing.

² Closing statements shall be for the purpose of summarization and rebuttal, and are not to be used to introduce new evidence or testimony, or to restate direct testimony.
